

ALEXANDER CASAS

BACK END DEVELOPMENT

GENERAL DATA

LOCATION

Neuquén, Neuquén, Argentina

PHONE

+54 (299) 4678607

DATE OF BIRTH

Juny - 14 - 1997

NACIONALITY

Argentine

TIME AVAILABILITY

Full Time

AVAILABILITY TO TRAVEL

Yes

LANGUAGES

Spanish (native), Inglés (A2 ~ B1)

SKILLS THAT WILL HELP YOUR BUSINESS

The programming logic that I have and my good proactivity can allow me to face complex problems autonomously.

My greatest intention is to know and adapt to the difficulties of the company in order to solve the work as quickly and efficiently as possible.

PROFILE

I'm a serious and responsible person, I like to do my responsibilities correctly to live a quiet life, also I love new challenges and I'm used to work under pressure. I have personally developed various applications on a large number of programming languages both compiled and interpreted over different kinds of paradigms.

My knowledge reaches from TypeScript, HTML, CSS to Assembly, pointers and binary logic.

HABILITIES

Weak

- Self-taught
- Proactivity
- Improved programming logic
- Excellent resolutive capacity
- Technology adaptability
- Issues anticipation
- Good communication
- Teamwork
- Responsibility
- Honesty
- Acceptance and analysis of criticism
- Tolerance to work under pressure

Strong

- GIT manipulation
- Visual Studio Code manipulation
- RESTClient manipulation
- Bash Console manipulation
- RestAPI development
- Relational and non-relational database knowledge
- Full Stack web development
- Knowledge of object oriented programming
- ECMAScript standards
- Data structure knowledge

EDUCATION

Autodidact 2010 - 2022

HTML5	Functional paradigm
Visual Basic	Object oriented paradigm
PHP7 y PHP8	JavaScript
FreeBasic	Programming logic
Assembler (FASM)	Advanced algorithm

Academlo (Full Stack Developer) 2022 - 2022

JavaScript, CSS3 and HTML5 fundamentals	Redux
NodeJS & Node Package Manager (NPM)	JSX
Vite	React-Router-Dom
ReactJS	Axios
PERN Stack	API consumption

RELEVANT CERTIFICATIONS

Foundations in HTML, CSS and Javascript

Front-End Development with React

JavaScript Algorithms and Data Structures

Back End Development and APIs
